# Public Policy & Leadership Concentration

## Overview

Our Public Policy and Leadership Concentration gives students the opportunity to develop skills to be successful in careers in the fields of law and justice, public safety, and social services while gaining knowledge in understanding the rule of law, the criminal justice system, and how each of these are related to justice (distributive, procedural, retributive, and restorative).

## Student Experience

Our hybrid model provides students the experience of learning in a classroom and the personalization provided by online learning. Students will take the Concentration's Course of Study in a classroom setting while taking the other courses using an online platform – all with the support of the site-based teachers. Activities emphasize a focus on leadership, teamwork, communication, and organization. Students will participate in Model UN, community services events, mentorships, and internships.

## High School Learning Center

Open from 1:15pm–2:45pm Monday–Thursday. A place and time for students to practice, enrich, reteach, and enhance their learning with the support of teachers. The Center is a place to collaborate with peers, to participate in clubs, and to innovate in our Makerspace.
